CERTIFICATION

ERIC HINES,
Defendant-Movant

I, Eric Hines, of full age, defendant in the above-captioned case, hereby certify that:

(1)

I am the above-named defendant, and I make this Certification in support of my Motion to Amend Certification in support of Post-Conviction Relief to Clarify all Grounds stated, which haven't been Raised or Perfected by PCR Attorney.

(2)

I am currently represented by counsel assigned from the Public Defenders Office. Mr. Theodore J. Baker, and pursuant to principle holding in <u>STATE V. RUE</u>, 175 N.J. 1 (2002), Mr. Baker, is obligated to raise those issues which I wish to advance as well as those found by counsel.

(3)

Because of reason stated in NOTICE OF MOTION FOR order to Amend PCR on December 19, 2014. On January 15, 2015 the transcribe Trial file document, requested from Mr. Baker was received. Which confirms the claims of Ineffective Assistance of Counsel on Trial Attorney for withholding evidence exculpatory to her client. And evidence in pretrial transcripts that Direct Appeal attorney refused to obtain. April 30, 2010 pretrial transcript were no on-the-record proceedings that date, that should have been put on the record for appeal purpose is also Ineffective Assistance of Trial Counsel.

(4)

As of April 23, 2015 the Amended PCR that was requested hasn't been filed. Under <u>STATE V. RUE</u>, I'm formally requesting Mr. Baker, to submit this Amended Post-Conviction Relief Petition

Clarifying all Grounds stated for PCR which haven't been raised or perfected by Mr. Baker. Because Post-Conviction Relief is a defendant's last opportunity to raise a constitutional challenge to the fairness and reliability of a criminal verdict in our state system. STATE V. RUE, 175 N.J. 1, 18 (2002) STATE V. FEASTER, 184 N.J. 235, 249 (2005)

(5)

I seek to protect my Due Process Rights and submit a perfected PCR to avoid protracted Litigation and have my PCR adjudicated on all available grounds based on the merits. Which are outlined below:

- A. Evidence not on Property Log/ Chain of Custody sheet, Prosecutor, Trial Attorney and Trial Judge allowed evidence in trial, BEER CANS, LIQUOR BOTTLES, VIDEO CAMERA, BLACK BAG, that weren't on any (PROPERTY LOG/EVIDENCE LOG) or Chain of Custody sheet creating a substantial reason to conclude, none of this evidence should have been presented to the jury. (without a 104 Hearing) As long ago as MOONEY V. HOLOHAN, 294 U.S. 103,112, 55 S.Ct. 340,342, 79 L.ED. 791 (1935) Trial Court never held 104 Hearing.
- B. Officer John Powers gave false testimony, Trial Court, Prosecutor, and Trial Attorney allowed officer to give testimony that defendant was seen carrying a Black Bag that contained, Video Camera. On June 24, 2010 at Charge Conference pg. 80-81 were trial attorney make's recollection of the testimony and from the evidence VOUCHERS confirms there was no video camera stolen. So video camera was removed from the verdict sheet, but know charge was given to the jury to cure this false testimony allowing the jury to believe. The officer in fact seen me carrying a black bag containing a video camera, when there's know evidence of one, which violated my rights to a fair trial by giving testimony to the jury that has know foundation or evidence to support stated claims.
- C. Pretrial transcripts April 30, 2010 no on-the record proceeding, states a motion was withdrawn, but trial court, prosecutor and trial attorney, In an appeal from a court, then, the record on appeal appropriately includes the transcripts of any pretrial proceeding, such as a hearing on a motion to dismiss on statute of limitations grounds in a civil matter, see SILVERMAN V. LATHROP, 168 N.J. Super. 333,336 (App.Div. 1979), Trial Attorney failure to have the ruling transcribe on the record violates my rights to appeal on said matter. Ineffective Assistance of counsel.
- D. On June 21, 2010 a pretrial Motions pg. 13-15 confirms discrepancies with Chain of Custody, (which proves trial Judge know of document S-31 Chain of Custody discrepancies problems making a 104 Hearing a PROCEDURAL REQUIREMENTS

OF RULE. On June 24, 2010 Charge Conference pg. 91-92 lines 12-25 were judge is aware of Chain of Custody violation was in question. Judge states on lines 19 pg.91 (I suggested we wait until Tuesday. WE DO IT IN A 104 Hearing. When there is a challenge to evidence, a Trial Court may commit plain error if it rejects the evidence without hearing even if the parties fail to request one. see Kemp ex.rel WRIGHT V. STATE, 174 N.J. 412,432-433 (2002)

PROCEDURAL REQUIREMENTS OF RULE 104(a). Ordinarily, where there is a challenge to the admissibility of proffered evidence or a proffered witness, the challenging party must make a threshold showing that an arguable issue exists as to that evidence before there is justification for full preliminary hearing under this rule. see STATE V. LONG, 119 N.J. 439,487 (1990) There was a challenge to Chain of Custody and Evidence.

- E. Complaints of Ineffective Assistance of Counsel on Gilbert G. Miller, ESQ. Direct Appeal Attorney, His refusal to raise constitutional violation, on trial court for allowing officer to give testimony about property not in evidence. Then striking said information from verdict sheet, by know jury charge was given. Also placing statement in Direct Appeal brief the was ruled on in 104 Hearing as inadmissible. And wasn't in the trial transcripts As the Court, "consideration of [an] appeal must be confined to the record made in the trial court." This is why I never received the 104 Hearing.
- F. Trial Counsel failed to effectively demonstrate to the jury that the State did not and could not adequately demonstrate a sufficient Chain of Custody regarding its DNA investigation, I will rely on the documents submitted by Mr. Baker and his letter Brief that's been submitted to explain these constitutional violation because of the numerous documents attached to said matter. Also Trial counsel refusal to suppress swabs and evidence that Det. Tom Whalon and Det. Earney handled even after the documents I showed her displayed all the discrepancies and fabricated documents.
- G. The state failed to give any documents regarding Chain of Custody or victim statement until the day of trial and the judge refused to suppress the evidence for a Brady violation.
- H. Video Conference on January 13, 2015 I requested Mr. Baker

 To transcribe a complete copy of trial file documents
 on January 17, 2015 I received them, DNA Extraction Worksheet page 8206 1of2, page 8206 2of2 second DNA Extraction
 Worksheet page 8223 1of2, page 8223 2of2, Also Proficiency
 Test Log. Confirms Brett Hutchinson gave false testimony

on what was tested, he stated the supervisor informed him to test three thing. But this documents show over twenty-one items were tested Bra, panties and Gloves. These items were withheld from the trial court and jury which trial counsel also withheld from her own client. Not allowing this evidence to be consider by trial court or jury violated my right to a fair trial and displayed a constitutional violation of my rights, and Ineffective Assistance of Trial Counsel. Because this Newly discovered evidence contain over 40 page, I want burden the court by documenting ever one. Please allow me and Mr. Baker to display said documents to the court at the Scheduled Hearing.

Based on the foregoing facts I am requesting the court to Amend Certification in Support of Post-Conviction Relief Petition to Clarify all Grounds stated, which haven't been Raised or Perfected by PCR Attorney.

I make this motion in good faith and not for delay, rather I seek to protect my Due Process Rights and submit a perfected PCR to avoid Protracted Litigation and have my PCR adjudicated on all available grounds based on the merits,

I hereby certify that the foregoing statements made by me are true. I understand that if any of the foregoing statements are willfully false, I am subject to punishment.

CERTIFICATION

PRIC HINTS, Defendant-Movant

T, Eric Hides, of full age, defendant in the above-captioned case, hereby certify that:

(1)

I am the above-named defendant, and I make this Certification in support of my Motion for Newly discovered evidence and evidence of prosecutorial misconduct should suffice to warrant a new trial. Fed. ?. Crim. P. 33.

121

I am currently represented by counsel assigned from the Public Defender Office. Mr. Theodore J. Baker, and pursuant to principe holding in STATE V. RUE 175 N.J. 1 (2002), Mr. Paker is obligated to raise those issue which I wish to advance as well as those found by counsel. But PCR attorney has fail to raise or perfect in a brief with case law to back up the evidence which is displayed in documents. Which confirms the suppression of exculpatory evidence and use of perjured testimony by the state, whether willful or merely negligent, deprives the defendant of a fair trial.

(3)

Because of reason stated in VOTICE OF MODION FOR order to amend PCR submitted on December 19, 2014. On January 15, 2015 the transcribe trial file document, requested from Mr. Baker was received. Thich confirms the claims of Ineffective Assistance of Counsel on trial attorney for withholding evidence exculpatory to her client. And allowed the prosecutor's witnesses to give false and purjured testimony even though documents in trial attorney file prove the testimony to be false and purjured that was material to the conviction. And know of the prosecutor participation in and her knowledge of the falsity. If the PCR attorney had carefully inspected the documents, that he transcribe and mailed to defendant or inspected the trial transcripts in their entirety these facts wound not have been missed.

(4)

Ineffective Assistance of Counsel on Appellate Attorney Gilbert 3. Miller, fail to raise on appeal. The grounds that wound perfected the Motion for a New Trial pursuant to R. 3:20-1 that was in documents and trial transcript, which confirmed the suppression of exculpatory evidence and the use of perjured testimony by the state. Mr. Miller submitted on appeal, Motion for a New Prial pursuant to R. 3:20-1 on the grounds that the verdict was against the weight of the evidence and that there was a manifest denial of justice under the law. "The principal thrust of defendant's argument is that the State knowingly failed to correct false statements made by six of it's witnesses by neglecting to bring to the attention of the jury a prior inconsistent and exculpatory statement by said witness, and further, by failing to correct certain statements made by the said witness on cross-examination that were known to the prosecutor Ms. Pratter and Trial Attorney Ms. Cohen to be false.

[311 4.2d 763] It is uncontrovertedly the law in New Jersey and all the states that the suppression of exculpatory evidence or use of perjure testimony by the state, whether willful or merely negligent, deprives the defendant of a fair trial. Brady v. Maryland, 373 U.S. 83, 83 S.Ct. 1194, 10 G. Ed. 2d 215 (1963); Napue v. IIIinois, 360 U.S. 264, 79 S.Ct. 1173, 3 G. Ed. 2d 1217 (1959).

This principle— that the State may not knowingly use false evidence, including false testimony, to obtain a tainted conviction— implicit in any concept of ordered liberty, does not cease to apply merely because the false testimony goes only to the credibility of the witness. Napue v. III incis, 360 U.S. 264, 269, 73 S.Ct. 1173, 3 L.Ed. 2d 1217 (1959); State v. Taylor, 49 M.J. 440, 453, (1967).

The court granted defendant a new trial because the suppression of the exculpatory evidence to the judge and jury deprived defendant of a fair trial.

(5)

The Amend PCR and this Motion for Newly discovered evidence and evidence of prosecutorial misconduct that warrant a New trial. Fed. 9. Crim. P. 33. Will satisfy a two-prong test enunciated by the Supreme Court of the United States in Strickland v. Washington, 466 U.S. 668, 537, 194 S.Ct. 2052, 2064, 30 U. Ed. 2d 674, 592- 93 (1984) and as adopted by the New Jersey Supreme Court in State v. Fritz, 105 N.J. 42, 50-52 (1987). 1. Trial Attorney Ms. Cohen, withheld exculpatory evidence from defendant even though she know the state witnesses was giving false testimony and had the documents to prove it. 2. Ms. Cohen was informed by defendant that Harry Corey and the prosecutor Ms. Pratter were giving false testimony about a CODIS Hit on swab from beer can, there isn't any documentation to back up their claims. 3. guarantees of the fourteenth Amendment. The court explained that due process is a requirement that cannot be deemed to be satisfied by mere notice and hearing if a state has contrived a conviction through the pretense of a trial which in truth is but used as a means of depriving a defendant of liberty through a deliberate deception of court and jury by the presentation of testimony known to be perjured. Such a contrivance by a state to procure the conviction and imprisonment of a defendant is as inconsistent with the rudimentary demands of justice as is the obtaining of a like result by intimidation. Dear Mr. Hines:

I have reviewed your letter dated June 8, 2018. The only issues before the Supreme Court at this time are those that were raised in your appellate brief. Your attorney cannot submit anything that was not considered by the PCR court cannot be submitted at this time. Please try to understand that the appeals courts do not take new evidence. All they do is examine what has been done by the lower court and decide whether your rights were abridged and, if so, what the remedy should be. Anything that was not presented to the lower court cannot be presented to the appeals courts.

Your first concern seems to be that evidence that you were in possession of the victim's property was stricken from the record but then PCR counsel included that evidence in his brief and then it was relied on by the PCR court. If that is all true, and if it was not raised in your current PCR application, it should be raised in another PCR motion should the Supreme Court refuse to grant you relief. The Supreme Court cannot now consider arguments that were not made already in the Appellate Division.

Your second concern has to do with newly discovered DNA evidence. If that was not raised by your PCR attorney, it could not be raised in the Appellate Division or in the Supreme Court. You may file a motion for a new trial based on newly discovered evidence to get that evidence into the case. This motion should be filed with the trial court and will proceed much in the same manner as a PCR petition.

Your medical condition is very unfortunate, but it is not relevant to your current appeal unless it was considered by the trial court or the PCR court.

I have answered your questions to me to the best of my ability, given the limited knowledge I have about your case. I see that you sent a copy of your letter to Mr. Slowinski, and I am sure that he will respond to you if that is appropriate.

Very truly yours,

Re: State v. Eric Hines

Appeal No. A-2765-15T1/Supreme Ct. Docket No. 080898

Dear Mr. Hines:

Thank you for your recent correspondence regarding your appellate case, which as you know is now pending before the New Jersey Supreme Court on a petition for certification after the Appellate Division confirmed the decision of Judge McBride denying your petition for PCR.

I have also received the document which you forwarded to the Supreme Court, but the clerk of the Court has advised that your filing cannot be considered with the petition for certification. To the extent that you are seeking to raise issues of ineffective assistance of PCR counsel, the place to raise those issues would be in a second PCR petition filed with the Criminal Division Manager's Office in Camden County. One of the arguments that I put forward in your appellate brief was directed towards this issue. I argued in Point III of the brief, pages 46 to 53, that your PCR attorney was ineffective because he did not retain a DNA expert to support your PCR petition even though he purported to identify problems with the DNA evidence. The only way to have the court address this issue would be to file a second PCR directed to the issue of ineffective assistance of PCR counsel. Although the Court Rules do not provide for an automatic right to counsel on all second PCR petitions, they do allow appointment of counsel for a showing of good cause. I would expect that by including Point III from the appellate brief with your second PCR petition and being specific about the grounds for your second petition, you may be able to make a showing of good cause and obtain the appointment of counsel to assist with the second PCR petition.

After receiving your letter, I tried to arrange for a video conference with you at South Woods, but on the day scheduled for the conference I was advised that you were unable to participate. Please let me know when you would be able to participate in a video conference and I will try to arrange one so that we may further discuss any concerns you have about the status of your case.

Re: State v. Eric Hines Sup. Ct. Dkt. No.080898 App. Div. Dkt. No. A2765-15

Dear PCR Unit,

Please be advised, notification that New Jersey Supreme Court has refused to accept defendant case for review. Points detailed in original Post Conviction Relief Application were not perfected by PCR Attorney, neither was the supplemental brief containing newly discovered evidence received from PCR Attorney, foregoing Honorable Judge McBride, granted defendant permission on the record to submit Supplemental Brief but no ruling, or final judgment was rendered. Theirs action hinder defendant Petition for Certicari, and that defendant must raise those constitutional issues in the New Jersey state courts first.

So please send he necessary forms, rules governing time restraints concerning filing of PCR petition and how would this apply to the time within which I must file a Federal Habeas Corpus Petition.

Thanking you for all of your anticipated help in above matter.

Re: Camden County Indictment

Dear Mr. Hines:

In response to your recent request to file a Petition for Post-Conviction Relief, enclosed please find a blank PCR petition. Fill out the entire form and file it directly with the county in which you were convicted:

Alba Rivera, Criminal Division Manager Camden County Hall of Justice 101 South Fifth Street Camden, New Jersey 08103

The court will review what you have filed, and will refer your case to the Public Defenders Post Conviction Relief Unit if appropriate. Once your matter is referred from the Court, we will open a file for you. Until the Court refers your case to this office, we cannot provide legal services to you in this matter.

Also enclosed is a Client Information Pamphlet. It explains the basic information you need to understand how Post Conviction Relief works. Thank you.

Respectfully Submitted,

- 2. Suppression of exculpatory evidnce or use of perjured testimony by the state, wether willful or merely negli-

gent, deprives the defendant of a fair trial.

cont of pg.2

STATE OF NEW JERSEY COUNTY OF

The petitioner duly sworn according to law, upon his oath depose and say:

- 1. I am the petitioner in this action.
- 2. I have read the foregoing and know the contents thereof and the same are true to the best of my Knowledge and belief, expect as to matters relating to other persons and as to those matters I believe them to be true.
- 3. In making this affidavit I am aware that false swearing could be subject to punishment for the same.

Defendant's Signature

- 6. " Continuation of current PCR claims"
 - 4. Prosecutor withheld DNA previously which confirms semen fraction was detected, withhold from jury and trial Judge deprived defendant of a fair trial.
 - 5. Newly discovered documents proves prosecutors witness gave false testimony.

Thus, the prosecutor's action had a clear capacity to lead to a verdict which otherwise would not have occurred and constitute "Plain error." R. 2:10-2. Therefore, defendant's convictions must be reversed.

Point

Trial Attorney

- 1. Withheld exculpatory evidence from Judge, Jury and defendant knowing information within could change verdict, suppression denied defendant a fair trial.
- 2. Allowed prosecutor's witness to give false testimony, that withheld exculpatory evidence proved was false changing the outcome of trial.
- 3. Documents proves question asked by trial attorney to DNA analyst was false, knowing DNA evidence if products at trial Bra + panties with semen fraction, who surely prove something or somebody lying.

Point PCR Attorney

- 1. Post-Conviction Relief attorney Theodore J. Baker, displayed a total wishes and Ineffective assistance of Counsel by not perfecting defendant arguments, but simply reciting defendants PCR application word for word, allowing Judge to only comment on point in question, but giving no opinion on the Amended PCR or Supplemental brief for newly discovered evidence.
- 2. Counsel ineffective assistance of counsel, put in brief information the was stricken from verdict sheet and charge sheet for which PCR Court use to make ruling to deny defendant PCR application.
- 3. And any of constitutional violation which defendant my discover.

Points Andrew P. Slowinski

1. Ineffective Assistance of Counsel, defendant was informed by counsel that Honorable Edward J. McBride, Jr., J.S.C. October 30, 2015 never address as a matter of record concerning Pro Se PCR Amended application, and Supplemental brief of Newly

discovered evidence were never perfect and present, therefore could not be raised on certification.

2. Punishing defendant when attorney was ineffective, still denies a fair process violate ever part of State v. Rue.

Thus, the PCR attorney actions had a clear capacity to lead to PCR Court denial of evidentiary hearing, had he investigated the facts and record he would have known said evidence was stricken. therefore, defendant PCR should start anew, and evidentiary hearing should be held.

Point Trial Judge

- 1. Allowed prosecutor's witness to give testimony, without foundation to back them up.
- 2. At colloquy trial court was made aware, video camera was stricken from the verdict sheet and charge sheet. no curative instruction was given to the jury to disregard. "This is why they came back with the question, about considering a second person, "trial Judge instruction to follow the evidence," Lead the Jury to make inference defendant had procession of victims property being a "black bag with video camera"

Thus, the Trial Judge's action had a clear capacity to lead to a verdict which otherwise would not have occurred and constitute "plain error." R. 2:10-2. If said unfair evidence + Jury instruction are aloud to go uncheck then, a fair trial will not be afford any defendant Therefore, defendant's convictions must be reversed.

Point PCR Judge

- 1. PCR Court reasoning for denying evidentiary hearing was basest of evidences stricken from verdict sheet and charge sheet, had the investigation been perform on the record which, was to be perfected, granting a opinion.
- 2. Defendant will be requesting DNA test to be performed on Panties, because when the DNA is returned confirming defendant is not a match, but semen fraction put another person in room will victim lied, forewhich jury is entitled to hear.

Thus, the PCR Judge action had a clear capacity coupled with PCR Attorney false statements lead denial of evidentiary hearing which otherwise would not have occurred PCR Attorney, and PCR Judge investigated occurred and constitute "plain error" R. 2: 10-2. Therefore, PCR should be started anew. I also reserve the right to raise anything according to State v. Rue

Use as many pages as needed.

Points:

- 1. Newly Discovered Evidence or Evidence of Prosecutor Misconduct may suffice to warrent a New Trial
- 2. Suppression of Exculpatory Evidence or use of perjured Testimony by the State, whether willful or merely negligent, deprives the defendant of a fair trial.
- The state may not knowingly use false evidence, including false testimony, to obtain a tainted conviction, implicit in any concept of other liberty, does not cease to apply merely becauser the false testimony goes only to the credibility of the witness.

- 8. "specificity the facts claim for relief is based legal arguments" cont. of page 1.
 - 3. The state may not knowingly use false evidence, including false testimony, to obtain a tainted conviction, implicit in any concept of other liberty, does not cease to apply merely because the false testimony goes only to the cre credibility of the witness.
 - 4. Prosecutor withheld DNA previously which confirms semen fraction was detected, withhold from jury and trial Judge deprived defendant of a fair trial.
 - 5. Newly discovered documents proves prosecutors witness gave false testimony.

Thus, the prosecutor's action had a clear capacity to lead to a verdict which otherwise would not have occurred and constitute "Plain error." R. 2:10-2. Therefore, defendant's convictions must be reversed.

Point

Trial Attorney

- 1. Withheld exculpatory evidence from Judge, Jury and defendant knowing information within could change verdict, suppression denied defendant a fair trial.
- 2. Allowed prosecutor's witness to give false testimony, that withheld exculpatory evidence proved was false changing the outcome of trial.
- 3. Documents proves question asked by trial attorney to DNA analyst was false, knowing DNA evidence if products at trial Bra + panties with semen fraction, who surely prove something or somebody lying.

Point PCR Attorney

- 1. Post-Conviction Relief attorney Theodore J. Baker, displayed a total wishes and Ineffective assistance of Counsel by not perfecting defendant arguments, but simply reciting defendants PCR application word for word, allowing Judge to only comment on point in question, but giving no opinion on the Amended PCR or Supplemental brief for newly discovered evidence.
- 2. Counsel ineffective assistance of counsel, put in brief information the was stricken from verdict sheet and charge sheet for which PCR Court use to make ruling to deny defendant PCR application.
- 3. And any of constitutional violation which defendant my discover.

Points

Andrew P. Slowinski

- 1. Ineffective Assistance of Counsel, defendant was informed by counsel that Honorable Edward J. McBride, Jr., J.S.C. October 30, 2015 never address as a matter of record concerning Pro Se PCR Amended application, and Supplemental brief of Newly discovered evidence were never perfect and present, therefore could not be raised on certification.
- 2. Punishing defendant when attorney was ineffective, still denies a fair process violate ever part of State v. Rue.

Thus, the PCR attorney actions had a clear capacity to lead to PCR Court denial of evidentiary hearing, had he investigated the facts and record he would have known said evidence was stricken. therefore, defendant PCR should start anew, and evidentiary hearing should be held.

Point Trial Judge

- 1. Allowed prosecutor's witness to give testimony, without foundation to back them up.
- 2. At colloquy trial court was made aware, video camera was stricken from the verdict sheet and charge sheet. no curative instruction was given to the jury to disregard. "This is why they came back with the question, about considering a second person, "trial Judge instruction to follow the evidence," Lead the Jury to make inference defendant had procession of victims property being a "black bag with video camera"

Thus, the Trial Judge's action had a clear capacity to lead to a verdict which otherwise would not have occurred and constitute "plain error." R. 2:10-2. If said unfair evidence + Jury instruction are aloud to go uncheck then, a fair trial will not be afford any defendant Therefore, defendant's convictions must be reversed.

Point PCR Judge

- 1. PCR Court reasoning for denying evidentiary hearing was basest of evidences stricken from verdict sheet and charge sheet, had the investigation been perform on the record which, was to be perfected, granting a opinion.
- 2. Defendant will be requesting DNA test to be performed on Panties, because when the DNA is returned confirming defendant is not a match, but semen fraction put another person in room will victim lied, forewhich jury is entitled to hear.

Thus, the PCR Judge action had a clear capacity coupled with

PCR Attorney false statements lead denial of evidentiary hearing which otherwise would not have occurred PCR Attorney, and PCR Judge investigated occurred and constitute "plain error" R. 2: 10-2. Therefore, PCR should be started anew. I also reserve the right to raise anything according to State v. Rue
